

FACILITIES SHOW INDIA

26-27 NOVEMBER 2020 MUMBAI INDIA
Hall 5, Bombay Exhibition Centre, Goregoan (E)

FACILITIES SERVICES: REDEFINED

INDIA'S PREMIER EXPO AND CONFERENCE
FOR THE FACILITY MANAGEMENT PRODUCTS AND SERVICES

INDIAN FACILITY MANAGEMENT INDUSTRY

Facility Management (FM) refers to the use of third-party service providers to maintain a part or entire building facility in a professional manner. It is increasingly gaining popularity amongst commercial as well as residential clients driven by modernization, rapid urban development and a growing awareness of advantages arising from outsourcing non-core business activities.

The Indian facility management market accounts for 3.2% of the GDP of the country and is at present an INR 5 lakh crore market and is expected to grow at a rate of 20-25% annually. The market is highly fragmented with relatively few organized players. However, with the growing formalization of the economy, the proportion of organized players is steadily increasing.

At present, the organized FM services industry in India is valued at INR 50 thousand crore constituting 10% of the total market. This is expected to grow to INR 1.25 lakh crore by 2022. In India FM services companies have only tapped 25% of the addressable market with 75% of this work still being undertaken in-house, a stark contrast to 49% at the global level

GROWTH DRIVERS

The Indian Facilities Management (FM) industry is in the midst of rapid development. The anticipated growth in the market can be attributed to:

- Growth in commercial and residential real estate
- Increase in SEZs, mega food parks, smart cities and housing projects
- Greater awareness of cleanliness and hygiene amongst industries
- Reduction in operating costs of the facilities/buildings
- More outsourcing by corporates who were hitherto insourcing
- Inability to provide specialized cleaning by inhouse personnel
- Increased business activities from Tier-2 and Tier-3 cities
- Increase in outsourcing of facility management services by Government offices

Latest technology and equipments in Facility Management.

A chance to Network and Build solid business partnership.
